Invitation

Welcome to the 2012 International Conference on Diabetes and Metabolism.

To diabetes researchers across the world

As representatives of Korean Diabetes Association, it is our pleasure to have the opportunity inviting you to the 2nd International Conference on Diabetes and Metabolism (ICDM), which will take place in Grand Hilton Seoul Hotel, Seoul, Korea, from November 8th to 10th, 2012.

The first ICDM held in Seoul, Korea in 2011 was the first international academic symposia with Korean Diabetes Association as the main host. Approximately 1,400 participants across 20 countries have joined the conference amidst a vibrant and festive mood.

The ICDM 2012 will focus on a wide range of dynamic topics and controversial issues concerning insulin secretion & biology, insulin action & obesity, clinical diabetes & therapeutics, epidemiology & genetics, acute & chronic complication, and behavioral medicine & education.

Participants will have the opportunity to take part in this stimulating meeting, which will facilitate discussions on the shared experiences and opinions of leading local and international experts.

This year, we are preparing the "Best of ADA 2012" session, which will select several especially outstanding presentations from this year's ADA Scientific Session. This session is expected to leave big impact on much of the audience.

Once again, we would like to express our warmest welcome to you for joining the ICDM 2012. We hope you to experience and enjoy the unique and wonderful cultural attraction during your stay in Seoul, home to beautiful historical sites, healthy and delicious food, internationally popular modern entertainments, and more fascinating events.

We look forward to your participation in this exciting academic conference.

Yours sincerely,

Hyung Joon Yoo, M.D., Ph.D.
President
Korean Diabetes Association

Seoul, Korea

Seoul has been the center of politics, economy and culture of Korea for six centuries since King Taejo, the founder of the Joseon Dynasty, who moved the capital here in the 3rd year (1394) of his reign. From ancient palaces with centuries of history to high-tech skyscraper of steel and glass, from ancient texts dating back millennia to the highest rate of broadband internet access in the world, Seoul is a place where the old and new exist in harmony. Today, Seoul is a dynamic city that never sleeps and the list of things to do is endless from sampling the outstanding cuisine served in the city's excellent restaurants to climbing the rock faces that overlook the city. Seoul is also the center of the so-called "Korean Wave" sweeping Asia. As Korean dramas, film and music reach a wider audience abroad, more and more visitors are coming to Seoul. With the first-class cultural facilities, terrific nightlife and a never-ending schedule of events, you will enjoy your visit.
